BACKGROUND DETAILS

Nitin Estate is owned by the Suhdir family and is located in the Ngorongoro Area, about 120 miles from Arusha town. The farm borders on the game reserve and elephants are a frequent guest. The specialty coffees come from the newer planting blocks that were planted five years ago.

The Karatu estate has 50 permanent employees and 200 seasonal employees during the harvest. The rounder shaped peaberry, formed from the maturation of one seed per cherry rather than the typical two seeds, is meticulously sorted during the milling process for its distinct flavor profiles.
